

ATTENTION: BAT TESTING

ASA will be doing mandatory bat testing for this event. That means that every bat that will be used for the Tournament will have to be tested and stickered. This only certifies that the bat has passed the compression test. Umpires will still check equipment prior to each game for other issues with the equipment (Per Rule 3 of the ASA Playing Rules). Testing will be done during check-in times and all facilities where games are scheduled underneath a tent. If a bat is not tested and makes it to the field it will greatly affect the status of that player. The UIC will be going over this at the Coaches meeting. Please plan ahead and only bring bats that will be used or intended to be used. ASA has a standard and if a bat does not pass it, it will be kept until the team is put out of the tournament.
