TAX MAP NO.: \_\_\_\_\_

In lieu of submission of an erosion and sediment control plan for the construction of this expansion project, I agree to comply with any reasonable requirements determined necessary by the City of Salem, Virginia, representing either the Building Inspector or the City Engineer. Such requirements shall be based on the conservation standards contained in the City of Salem Erosion and Sediment Control Ordinance, and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation on or resulting from this project.

As a minimum, all denuded areas on the lot shall be stabilized within seven (7) days of final grading with permanent vegetation or a protective ground cover suitable for the time of year. Temporary soil stabilization shall be applied within seven (7) days to denuded areas that may not be at final grade but will remain dormant (undisturbed) for longer than 30 days. I further understand that failure to comply with such requirements within three working days following notice by the representatives of the City of Salem could result in citation for violation of the City of Salem Erosion and Sediment Control Ordinance.
