Due to the potential of this facility being used for high-piled or rack storage as defined by NFPA standards. If this is the case, special fire protection features may be required beyond those specified in the initial building permit plan review.

Please check the appropriate box below, sign, and you or your design representative to include this form with sprinkler drawing submittal. If you have any questions, please contact us at (540)375-3036 or via email at communitydev@salemva.gov. If additional fire protection features are required, you will be notified in writing.

This building will not be used for high-piled storage as defined by the code:
--Storage in piles or on pallets, in racks or shelves where the material being stored will not exceed twelve (12) feet in height, or
--Tires, Group A plastics, flammable liquids, idle pallets or similar high hazard materials will not be stored above six (6) feet in height.

This building will be used for high-piled storage, and will be designed to conform to appropriate standards.

This building is a speculation building without a tenant at this time. The owner will notify tenant to contact our office for occupancy of any high-piled or rack storage applications.
